

# 810-040-187/3 & 810-040-250/3-Oneshots

## Specification Sheet

Our 810-ONESHOT pumps, as the name implies, allow the user to preset a period of time via a multi range timer inside the box, which can then be activated by pressing a black button on the outside of the case. The pump will run until the time elapses and then stop. It will not re start until the push button is pressed again. It makes it ideal for small dispensing and filling operations.

They are available in two flow rates of 70 or 120 ml/min and contained within an IP56 ABS wall mountable box overall size 190Lx135Wx135D.

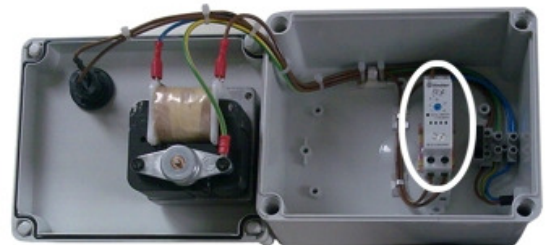

Supplied with a 230V motor and choice of either a UK or Euro power cord.

Available in two variations with UK or Euro plug

810-040-187/3-Oneshot 70ml/min flow  
810-040-250/3-Oneshot 120ml/min flow
